DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Appeal Brief pages 5-9, 13-15, filed 11/02/2005, with respect to claims 1 and 38 have been fully considered and are persuasive. The rejection of claims 1-26, 38-45 has been withdrawn.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 38, the cited prior arts, either alone or in combination, fail to teach or suggest a secondary base repeater node operative to receive an information signal from an originating information signal source, and to receive a command signal including a direction command from an originating base station having a command signal transmitter, and to transmit the information signal in at least one of three directions, the direction in which the information signal is transmitted being determined by the direction command of the command signal, in combination with all of other limitations in the claims.

Claims 2-26 depend on claim 1. Therefore, they are allowable.

Claims 39-45 depend on claim 38. Therefore, they are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
